Re: Student Schedule Changes

Dear Parents and/or Guardians:

We have had a great start to another year at South Gwinnett High School. As you know, our classes have been quite full this year. We greatly appreciate your patience with us during such an exciting time. Each year the school system projects what our enrollment will be and we hire teachers according to that projection. We exceeded our projected enrollment and we have added several excellent teachers. We are pleased to have them as new members of our SGHS family.

Our next step toward improving our instructional services is rescheduling affected classes. We know this will be a difficult time for our students and teachers who have already built relationships and become comfortable with the patterns of their day. We will do our absolute best to make sure the changes impact as few students as possible. We are asking for your support as we go through this process. We appreciate your support of your child's current teachers and any new teacher they may be assigned. Students had an opportunity to volunteer to have their schedule changed. We did our best to honor each request.

On October 24th, 2011, your child should follow the schedule listed on the other side of this sheet. If your child forgets to bring this sheet to school, they can check the first period teacher lists that will be posted in the Commons Area. Our teachers will review the syllabus and assist any students who have moved to be fully informed and comfortable in their new classes.

Thank you for your continued support of our staff and we look forward to a great school year. College- not *if*, but **where!**

Sincerely,

Clay Hunter
Principal
