

Male Leadership Conference

Forty-five young men from South Gwinnett attended the Male Leadership Conference sponsored by the National Coalition for Exemplary Schools. Many of the students were recommended by their teachers for their leadership qualities but the conference was open to all young men in grades 10, 11, and 12. The conference was held at UGA and included teambuilding activities, a keynote address encouraging leadership and college completion, a panel presentation by UGA students, and a campus tour. This was our second year attending this conference and we hope to make it an annual event!
